Premium Range of HOME APPLIANCES

PRODUCT CATALOG 2023-2024

ABOUT US...

MOHIT APPLIANCES was established in 1982 as a small appliances company, which manufactured only mixer grinder.

Today, **MOHIT APPLIANCES** is well renowned name in Indian market. We pursue boundless dreams by accepting challenges that others timidly avoid. We believe that a strong will can make dreams come true, and that limitless effort can overcome any obstacle. These beliefs remain the driving force behind our growth.

True to our motto - **“only the best is good enough”**.

Our company has emphasised the importance of high quality throughout its more than 40-years history, ensuring that consumers returns to **MOHIT** products again and again.

We aim to become a better company that grows continuously in the future, for that we have a strong R& D team. We have the most recognised certification mark ISI by Bureau of Indian Standards (BIS) and maintain the standard according to the guideline provided by them.

We believe that the support and faith we got from our vendors, dealers and distributors (our family) will remain same in the future.

A non-electric water purifier comes with:

Ceramic Filter + Activated Carbon + Sediment Cloth Filter + pH Filter + Minerals.

The water is filtered from suspended and chemical impurities, sediments and microbes to a certain level. This does not use any chemicals to purify your water and yet ensures it's safe and healthy for consumption.

Purification Stage- 7 Step Filtration:

1st step : Ceramic dome filter- Removes chloramines, pesticides & volatile organic chemicals. Removes Residual impurities.

2nd step : Granular activated carbon- Removes chlorine, color and odor from water.

3rd step : Sediment cloth- Removes impurities.

4th step : Ph correction medium: Balances acidic & alkaline nature of the water.

5th step : Mineral Sand: Releases inorganic mineral elements & keeps water fresh.

6th step : Ceramic Balls white: Works as antibacterial, prevent heavy metal harmful for human body.

7th step : Ceramic Balls Red.

Features & Benefits of 16 Liters Mineral Filter:

- Micro hole ceramic filter.
- Releases inorganic mineral elements needed for human body.
- Streamlined & contemporary design.
- Granular activated carbon cartridge. No electricity required.
- Removes chlorine, chemicals, bacteria, iron & dust.
- Eliminates odour & improves taste.
- No plumbing required.
- Hassle free maintenance.
- Fill water and drink directly.
